## RELOCATING YOUR DATA

# Why relocate your data ?

Many African companies still host their data outside the continent, resulting in slower local loading times and reduced digital sovereignty.

By relocating your data to Africa, you kill two birds with one stone !

## Speed up loading

Accelerate access to your data and applications (websites, cloud, ERP...) by 4 to 5 times\* for your local clients and employees.

\* Compared to hosting in Europe or the US

## Strengthen your digital sovereignty

Keep your core data in the country where you operate, while secured with GDPR protection from our French company.

ONE CONTINENT, ONE QUALITY OF SERVICE

## Local hosting in 20+ African countries

South Africa  
Algeria  
Angola  
Benin  
Botswana  
Burkina Faso  
Cameroun  
Côte d'Ivoire

Egypt  
Gabon  
Ghana  
Kenya  
Madagascar  
Maroc  
Maurice  
Nigeria  
Uganda

RDC

MORE THAN JUST A LOCAL WEB HOST

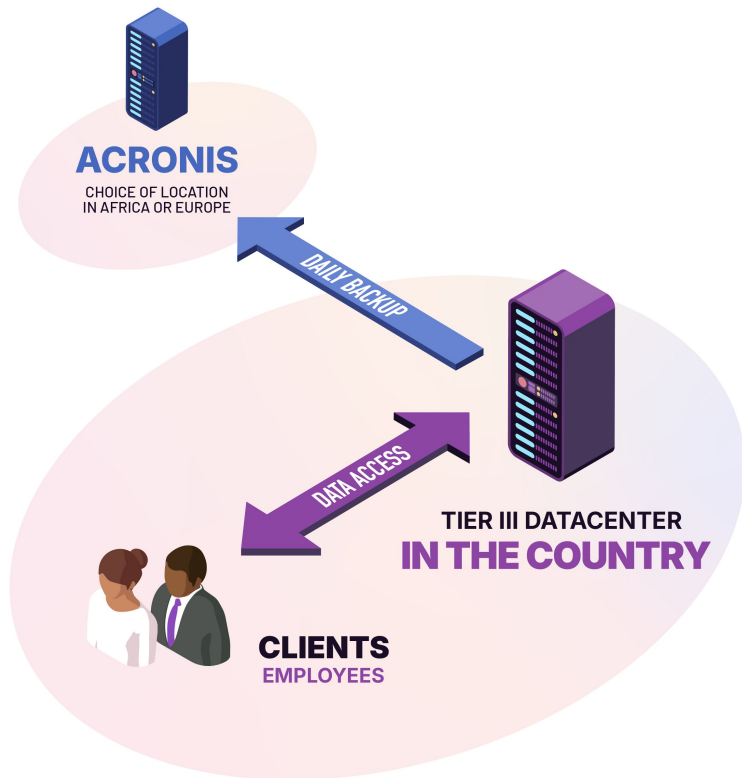

# Backup & Off-site DRP

Your data is hosted in a Tier III datacenter in your country, close to your users, ensuring optimal performance and a seamless experience.

And because risk zero doesn't exist, it's also backed up daily at an off-site location.

DRP available as an option

24/7 MONITORING OF YOUR CRITICAL SERVICES

We help our clients reduce  
their digital footprint and improve  
their efficiency

We turn off 50%  
of our CPUs at night  
and save up to  
10% energy\*\*

\*\*Between turning off 50% of CPUs at night and blocking malicious traffic

Our teams work exclusively with  
refurbished equipment and  
follow best practices in  
responsible digital use.

SUPPORT PROGRAM

# Hodi supports digital innovation in Africa

We contribute to digital innovation and inclusion in Africa by offering lifetime hosting to solidarity associations and 12 months of hosting to startups we believe are vital for the continent's future.

We also partner with local incubators to support projects shaping Africa's digital future.

Choosing Hodi means supporting innovation in Africa.

A woman and a man are looking at a laptop in a coding environment. The woman is pointing at the screen, and the man is looking at the screen. The background shows other people working at desks. The image has a gradient overlay at the top and bottom.
